

Customer Behavior Performance

End-to-end analysis of 3.9K customers, loyalty, categories, and shipping economics.

Executive Portfolio Snapshot

Active Reach

3.9K

Avg Purchase

\$59.76

Avg Rating

4.0 / 5.0

Loyalty Program Viability

1

Non-Subscribers

2,847 (73%) — \$59.87 — 4.0★

2

Subscribers

1,053 (27%) — \$59.49 — 4.0★

 Discovery: negligible ticket difference. Program not driving higher AOV.

Customer Lifetime
Value Growth

Critical Programmatic Insight

Diagnosis

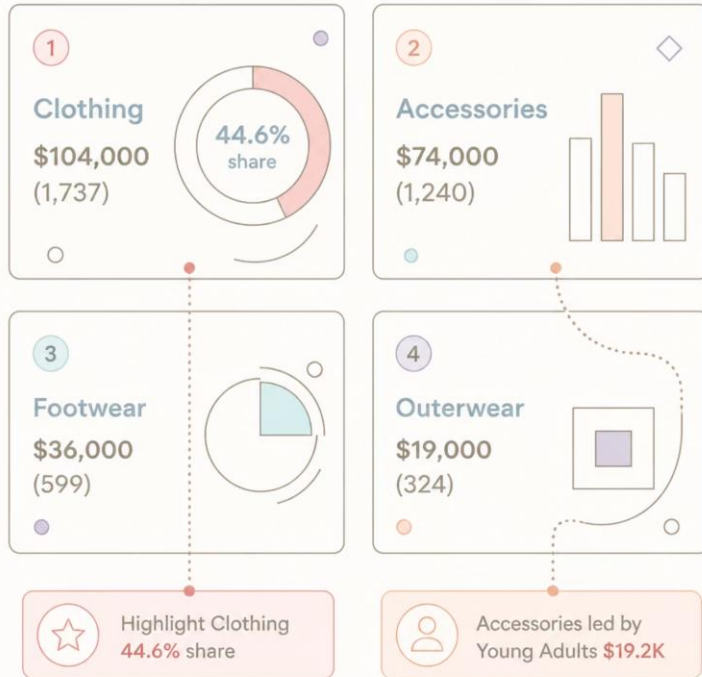

Subscription fails to increase per-transaction AOV.

Strategic Pivot

Shift focus to increasing purchase frequency and LTV.

Category Contribution

Clothing

\$104K · 1,737 orders ·
\$60.03 avg

Accessories

\$74K · 1,240 orders ·
Young Adults lead
\$19.2K

Footwear

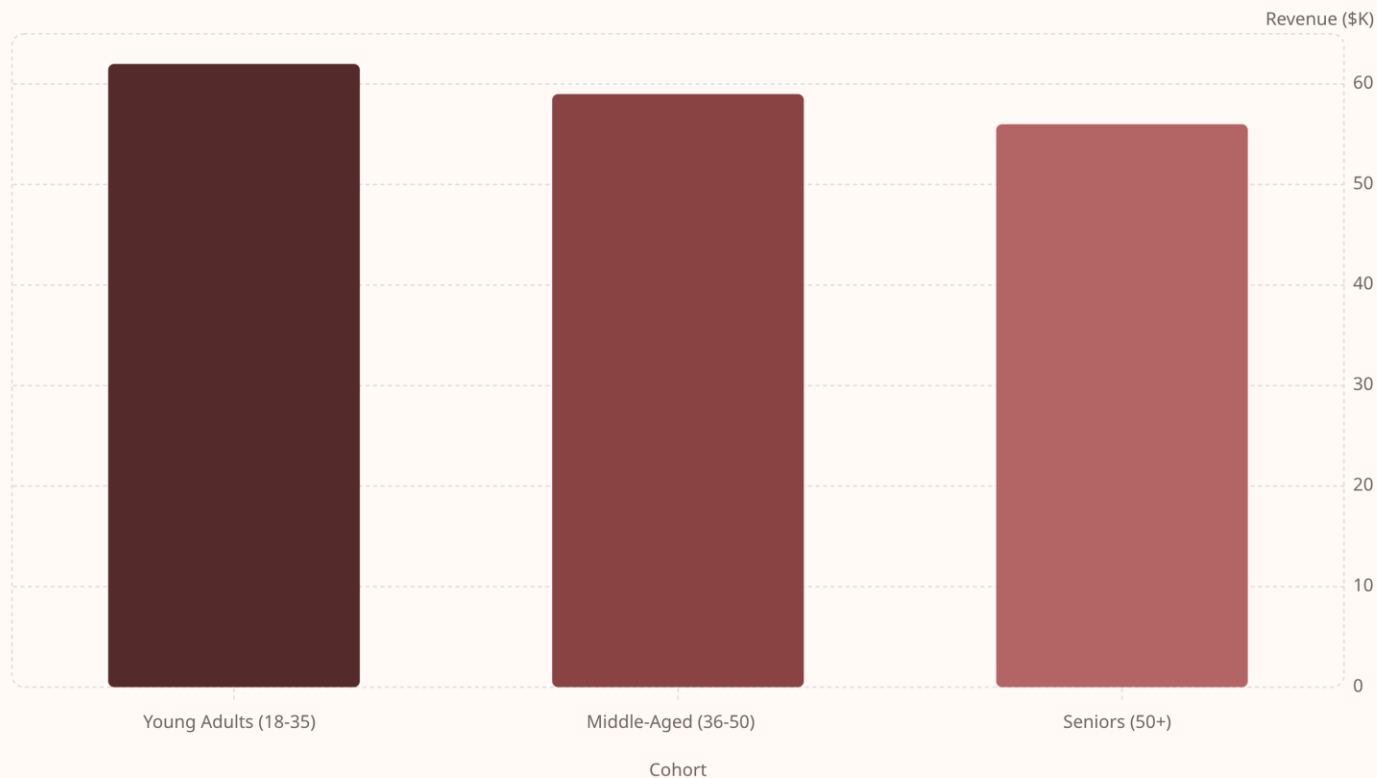

\$36K · 599 orders

Outerwear

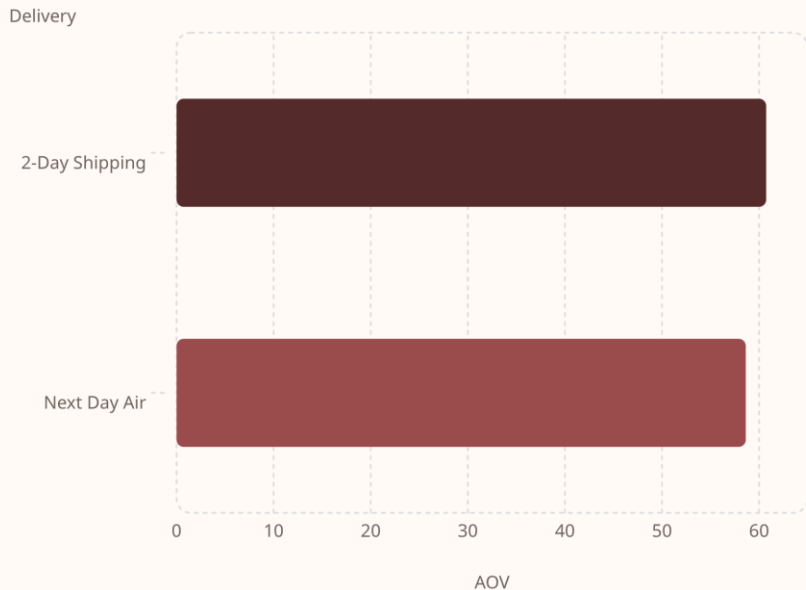

\$19K · 324 orders

Demographic Cohort Profile

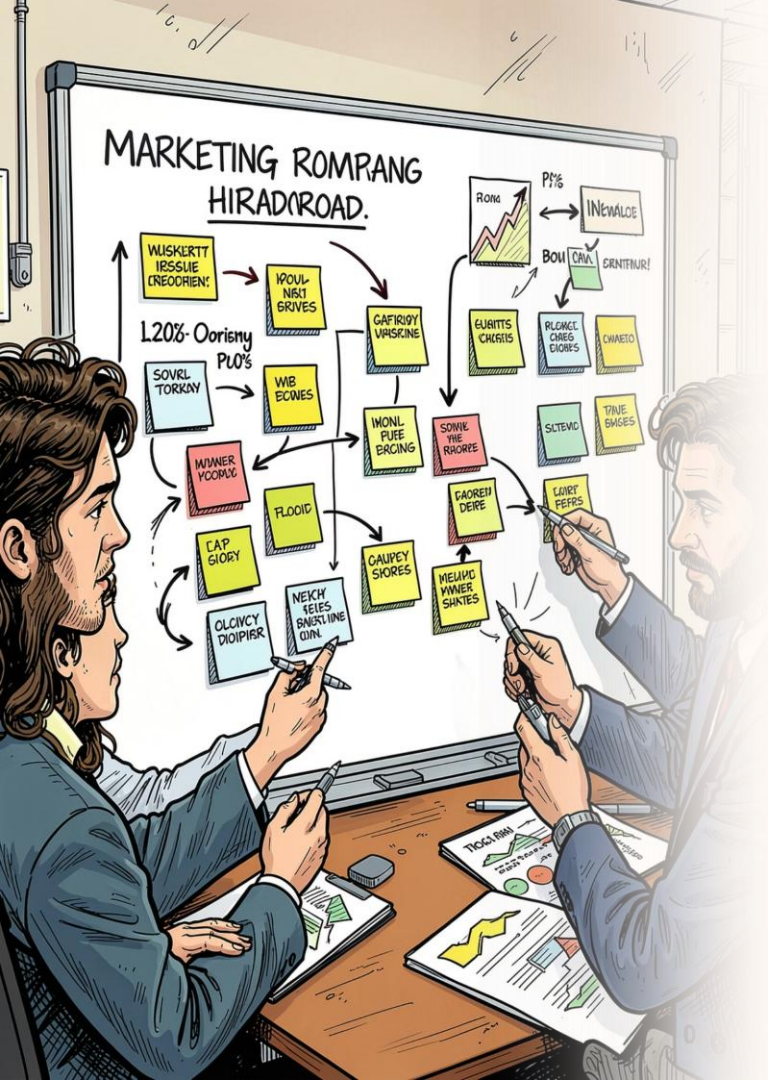

Near-flat distribution — universal brand appeal. Marketing need not target only younger cohorts.

Shipping & Checkout Economics

Fast-delivery buyers show higher AOV — opportunity to tie perks to conversions.

Data-Driven Roadmap

Free 2-Day Shipping

Use as sign-up incentive for non-subscribers to grow subscriber base.

Accessory Bundles

Programmatic "Complete the Look" carousels at checkout to lift AOV toward \$65.

Focus on Frequency

Shift loyalty KPIs from per-transaction AOV to purchase cadence & LTV.
